SUMMARY

Full Stack Developer specializing in AI-powered web applications, workflow automation, API integrations, and scalable SaaS platforms. Experienced building production-ready applications using React, Next.js, Node.js, TypeScript, Python, PostgreSQL, Supabase, Docker, and modern cloud deployment platforms.

Designed and delivered automation solutions that reduce manual work, streamline business operations, and integrate AI services into real-world products. Strong background in debugging complex systems, integrating third-party APIs, deploying cloud applications, and developing secure, maintainable software.

EXPERIENCE

Freelance Full Stack Developer & AI Automation Engineer

- AI Workflow Automation: Automated business workflows using AI models and API integrations, reducing repetitive manual processes through intelligent automation.
- AI Workflow Automation: Built end-to-end workflow solutions using n8n, REST APIs, and cloud services to improve operational efficiency.
- AI Workflow Automation: Integrated notification systems and third-party services to streamline business operations.
- Full Stack Web Development: Developed responsive web applications using React, Next.js, Node.js, and PostgreSQL.
- Full Stack Web Development: Built secure authentication systems, dashboards, and scalable backend APIs.
- Full Stack Web Development: Delivered modern SaaS applications with clean user experiences and maintainable codebases.
- API Integration: Connected external APIs and third-party services to automate data exchange and business workflows.
- API Integration: Developed reliable backend services with secure authentication and error handling.
- Deployment & DevOps: Deployed production applications using Docker, GitHub, and Vercel.
- Deployment & DevOps: Configured deployment pipelines, version control workflows, and cloud hosting environments.

PROJECTS

AI Workflow Automation Platform | Built intelligent automation workflows integrating AI services, APIs, and cloud infrastructure to simplify repetitive business processes and improve operational efficiency.

- Technologies: React
- Technologies: Node.js
- Technologies: n8n
- Technologies: OpenAI API
- Technologies: PostgreSQL
- Technologies: Docker

AI-Powered Web Applications | Designed and developed full-stack applications with authentication, dashboards, responsive interfaces, and scalable backend architecture.

- Technologies: Next.js
- Technologies: React
- Technologies: Supabase
- Technologies: PostgreSQL
- Technologies: Vercel

Shopify & API Integration Solutions | Integrated Shopify with third-party platforms through secure REST APIs, improving operational workflows and reducing manual data handling.

- Technologies: Node.js
- Technologies: REST APIs
- Technologies: Shopify
- Technologies: JavaScript

TECHNICAL SKILLS

Languages: JavaScript

Languages: TypeScript

Languages: Python

Languages: SQL

Languages: HTML5

Languages: CSS3

Frontend: React

Frontend: Next.js

Frontend: Responsive Design

Frontend: Modern JavaScript

Backend: Node.js

Backend: Express.js

Backend: REST APIs

Backend: Authentication

Backend: API Development

Databases: PostgreSQL

Databases: Supabase

Databases: Firebase

AI & Automation: OpenAI API

AI & Automation: AI Agents

AI & Automation: Workflow Automation

AI & Automation: Prompt Engineering

AI & Automation: n8n

AI & Automation: AI Integrations

DevOps & Cloud: Docker

DevOps & Cloud: Git

DevOps & Cloud: GitHub

DevOps & Cloud: Vercel

DevOps & Cloud: Deployment

DevOps & Cloud: Version Control

Integrations: REST APIs

Integrations: Third-Party APIs

Integrations: Shopify Integrations

Integrations: Webhooks

CORE EXPERTISE

Full Stack Development; AI Automation; AI Agents; Workflow Automation; API Integration; SaaS Development; REST APIs; OpenAI API; n8n Automation; React; Next.js; Node.js; TypeScript; JavaScript; Python; PostgreSQL; Supabase; Docker; GitHub; Vercel; Cloud Deployment

CORE COMPETENCIES

Software Engineering; Full Stack Development; AI Automation; AI Integration; Workflow Automation; API Development; Database Design; Cloud Deployment; Software Architecture; Debugging; Performance Optimization; Problem Solving; Agile Development; Team Collaboration; Technical Documentation; Continuous Learning

ATS KEYWORDS

Full Stack Developer; AI Automation Engineer; AI Integration Engineer; Software Engineer; React Developer; Next.js Developer; Node.js Developer; JavaScript; TypeScript; Python; REST APIs; PostgreSQL; Supabase; Docker; GitHub; Vercel; OpenAI API; AI Agents; Prompt Engineering; Workflow Automation; n8n; SaaS Development; API Integration; Cloud Deployment; Shopify; Web Applications; Backend Development; Frontend Development
